

2 Step Kit

TRANSMISSION TUNE-UP KIT

Contains Universal ATF Protectant!

- ✓ Is it difficult to change gears?
- ✓ Do the gears grind when changed?
- ✓ Do you feel the transmission slipping when you increase or decrease speeds?
- ✓ Does the vehicle hesitate to change speeds?
- ✓ Does your car buck when changing speeds?

Heat build-up is the number one enemy of a transmission. The fluid in the system must remain clean of all dirt to ensure that it can keep the system cool, lubricated, and provide the necessary pressure to keep your vehicle moving.

6537 TRANSMISSION TUNE-UP KIT:

- Helps extend transmission life
- Safely removes dirt and varnish build-up
- Restores performance
- Frees sticky valves
- Reduces friction and wear
- Cleans and conditions seals and O-rings
- Restores smooth shifting
